

"THE" PLASTIC PALLET

The ANSWER to your Pallet Needs

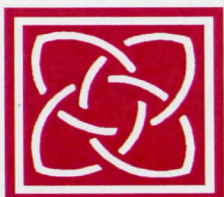

- One-Piece Construction (no nails or splinters; deckboards and stringers will not fall off)
- Molded of tough, corrosion and weather resistant polyethylene
- Molded-in 1" steel tube for rackability
- Molded-in 1" lip on top deck for extra load stability
- Will not warp, degrade, split, rot, or mildew like wooden pallets
- Washable - easy to clean
- Sellable Asset - reusable and recyclable
- 48" x 40" x 5 1/2"
- Four-way entry for fork lift and hand pallet trucks
- 3,000 lbs. dynamic and 15,000 lbs. static load capacities

100% Recyclable

CUSTOM FEATURES AVAILABLE

- *FDA/USDA Approval*
- *Custom Colors*
- *Increase or Decrease Load Capacity*
- *Logo's, Identification Labels - Molded Directly into Pallet*
